HANGZHOU SG

FRACTIONAL CO2 LASER SYSTEMS

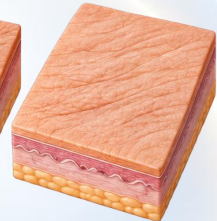

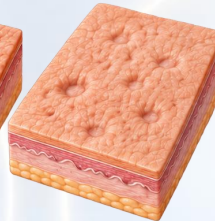

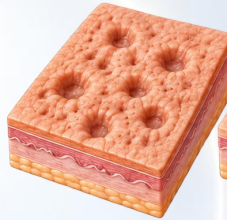

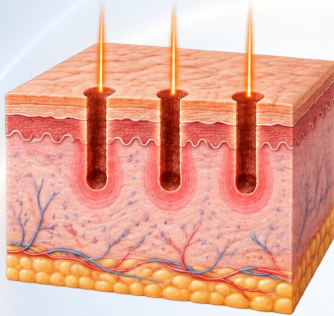

# IN THE CLINIC

Fractional CO2 systems for aesthetic practices

# HOW FRACTIONAL CO2 WORKS

Targeted microchannels. A natural healing response.

## MICROCHANNELS

## ACNE-SCAR TEXTURE

## FINE LINES

Microscopic ablation columns leave bridges of untreated skin. Healing stimulates collagen remodeling and may improve scars, fine lines and uneven texture.

Concept illustrations, not clinical before/after photos. Results vary.

## HANDPIECES & OPTIONAL VAGINAL PROBES

vaginal model

Ultrapulse model

Fractional model

**TOP ROW — Vaginal probes (optional, sold separately).**

Provide access and guide laser delivery to vaginal tissue.

**LOWER LEFT — Ultrapulse handpiece.**

**LOWER RIGHT — Fractional scanning handpiece.**

Vaginal rejuvenation benefits are not established. For trained clinicians and authorized indications; risks include burns, scarring and pain.
